SUMMARY

Full-stack engineer with 8+ years shipping web platforms end-to-end across edtech, ops tooling, and web3. Strong on Laravel/Symfony backends, React/Next.js frontends, and AWS infrastructure. Building performant, scalable solutions.

SKILLS

- **Frontend:** JavaScript, TypeScript, React, Next.js, TailwindCSS, Alpine.js, Livewire, D3.js
- **Backend:** PHP (Laravel, Symfony), Node.js (Express), Python (Django), REST/OpenAPI, Stripe & Intercom APIs
- **Cloud & DevOps:** AWS (EBS, RDS, IAM, Route53), Vercel, Cloudflare, CI/CD, Agile, Pest, Jest
- **Databases:** SQL, GraphQL, MongoDB, Firebase, Supabase, DynamoDB

EXPERIENCE

MyEdSpace - Full-Stack Engineer

Feb 2025 - May 2026

- **Engineered** LMS backend on Symfony/Laravel with OpenAPI-documented APIs serving 5,000+ daily active users; implemented video attendance tracking across 200+ course videos and publishing status systems.
- **Overhauled** content tooling with React (40% faster processing), integrated Intercom for 5,000+ users, built custom Stripe installment logic, and cut page load times 35%.

Opskit - Full-Stack Engineer

Dec 2023 - Feb 2025

- **Architected** real-time data-visualization dashboards (React, D3.js, GraphQL, TailwindCSS, Amplify) spanning 50+ operational metrics for mine operators.
- **Delivered** 3 scalable products, accelerating data processing 60%, in 2-week sprints across 3 cross-functional teams.

LEA Growing People - Full-Stack Engineer

Jun 2022 - Sep 2024

- **Built** an onboarding system (Next.js, Node.js, Express, Firebase) cutting onboarding time 80% for hundreds of monthly new users.
- **Engineered** a coaching platform serving hundreds of clients; authored docs adopted by 90% of users, reducing support tickets 40%.

Stealth Startup - Full-Stack Engineer

Nov 2022 - Dec 2023

- **Built** 7 web3 WordPress plugins and migrated them to a monorepo, cutting build times 30% across 3,000+ installations.

Freelance - Full-Stack Engineer

Jan 2021 - Dec 2023

- **NFT DApp:** web3 marketplace on IPFS, MongoDB, Next.js, Hardhat/Truffle; facilitated 2,000+ mints.
- **AI Story Generator:** children's story app with Django, Next.js, and AWS (EBS, RDS, IAM, Route53), generating custom illustrated stories on demand for early adopters.

BlessHost - Frontend Engineer

Jan 2018 - Jan 2021

- **Designed** mobile-first responsive sites with MERN/TALL stacks, improving UX and load times for client engagement.
